

Annual Administrative report for the year 2015-16 in respect of Fisheries Department Papum Pare District.

Papum Pare District has a vast potential resource for development of Fisheries both in capture as well as culture system. The geographical administrative area of the District is 2875 sqkm. The systematic fish culture in a confined area i.e in ponds / tanks was introduced way back in 1964 with emphasis only socio-economic development of the District as well as targeted beneficiary and also production of fish through rural participated approach.

In order to tap the vast potential resource of the Dist, various Departmental scheme like FFDA, RKVY, TFC, Paddy cum-fish culture, Pig cum-fish culture, Poultry cum-fish culture and Poly culture are being implemented to boost up his production as well as to improve their economic status.

Administrative setup.
